Ray Lucchesi selected as co-judge for Best of Interop (BOI) Data Center & Storage Category

Broomfield, Colo. – Ray Lucchesi, President of Silverton Consulting has been selected as a co-judge for the data center and storage category for BOI this year. The application deadline was April 4th and the judges will select the top three finalists in each category, and the winner will be awarded at the Interop Conference on April 29th.

BOI judges are selected based on overall expertise, knowledge and reputation in their selected category. Ray has over 25 years in developing, marketing, and supporting storage and data center products and is honored to accept this responsibility.

The BOI data center and storage category covers data center storage network switching, power and storage product areas. In total there are seven categories in the BOI competition including network and application performance optimization;; infrastructure; network management, software and services; security; VoIP and collaboration; wireless and mobility; software; and finally, data center and storage

ABOUT Silverton Consulting, Inc. - Silverton Consulting is a Storage, Strategy & Systems consulting services company, based in the USA offering products and services to the data storage community.
